Terms Of Service

1. World Typology (https://worldtypology.com)

“World Typology” (formerly Typology.one) is the first author’s typological website about innate qualities of nature and people. “We”, “us” and “our” means “World Typology” team of authors and refer to this website. Our website is https://worldtypology.com and its information is based on the stable facts of nature and history. These facts helped us to define new facts, connections and regularities in theory and in nature and to define your correct innate type of thinking (ITT), 8 inborn groups of people, temperament and complete innate personality type. ITT is your innate type of thinking, or more accurately, it is your inherited type of thinking.

Our team’s task is to create comfort and better human relationships for each person in the world. The results of our typology tests will help you to understand the complete complex portrait of your personality and will give you lots of free interesting information. You can then learn about other people as well and begin to respect their innate values and characters.

This website (“World Typology”) and its authors do not collect your typological statistics and typological information using this website. We treat your personal typological information and the results of our typology tests as personal data. If you choose to share your information with others, you do so voluntarily and at your own risk. “World Typology” website serves only as the author’s typological free encyclopedia with information. But we, as authors, would like to collect typological statistics in the future. We believe that this will help the authorities to change policies, laws and regulations towards different innate groups of people according to their different objective life values. But more important, that people will realize where to immigrate and with whom they should live together, without regarding only to financial purposes.

“World Typology” information and typology tests together may help all people find those persons with whom they may feel more comfort in communication, family, work, business, neighborhood. These may prevent continuous misunderstandings and conflicts of various people. And maybe it can prevent some diseases. But in general, the typology test result may be a good addition to your national passport or biometrics. We hope you will like it.

These Terms of Service (“Terms”) describe our obligations to you, and your responsibilities and rights when you use our services, information and website. Read them attentively and contact us if you have any additional questions.

2. Terms Of Service

These Terms of Service along with the Privacy Policy are the parts of the Agreement and describe your access to and rules of use of the website (https://worldtypology.com), as well as all content (materials, information) published on this website and “World Typology” services. By the word “content”, “information” or “materials” is meant: articles, books, maps, photographs, diagrams, titles, descriptions, text, lists, statistics, collections, videos, tests, typology test results etc. published by the “World Typology” authors.

You need to read this Agreement before using our website and Services and accessing to it. During your access or using any part of our Services, you agree to become bound by the Agreement. If you don’t agree to all the terms written in the Terms of Service and Privacy Policy, you should not access and use our Services and website.

We offer our Services to your consent, with all terms and conditions contained in Terms of Service, including Privacy Policy, and other information that may be published by “World Typology” (collectively, the “Agreement”). You agree that we may update our Services, Terms of Service and Privacy Policy any time, and the Agreement will apply to any changes.

For “World Typology” services we use some third party services. We use https://wordpress.com/ as a hosting provider and website builder. Additionally, we use some popular messengers and social networks listed on our website for the purposes of communication and advertising. All these businesses and their services have their own Terms of Use (Terms of

Service) and Privacy Policy we are not connected to. In this case, some or all of these listed services may or may not be the reason for loss or damage of your personal data.

You agree that before taking our free typology test, you have no doubts or mistrust in the result of the work of the authors and team of “World Typology”. Otherwise, we urge you not to complete this test. You can check all information, logic and regularities on your own on “World Typology” website and in the books that you can find here. You agree that you will not use our typology tests and typology test results unless you agree to our Terms of Service and Privacy Policy prior to testing.

When taking our free typology test and before taking it, you confirm that you are able to take this test on your own and that you have no medical contraindications or health-related impediments to taking this test. You confirm that you are in good health and are able to answer all test questions fully on your own. The same applies to people with any health and vision problems, if their problems may prevent them from carefully taking a typological test or may lead to strong logical contradictions in their answers.

Therefore you agree that the answers to the test questions are your personal informed choices, which may be physically selected by another person at your dictation (if you need assistance), but the answers are necessarily controlled by you personally and given without anyone else’s “thought help”, interference or pressure.

You agree that you may receive no result (incorrect result), instead of your correct typology test result. This may happen due to manipulative, inattentive or misleading answers to the test questions or in the situation, when you didn’t understand many questions and tasks from the test. Sometimes it also happens when a person answers the questions and tasks of the test very quickly, without delving deeply into their essence and without spending a lot of time on the test answers. Therefore, you agree that our free typology test may not give you the correct result and may not work for you or help you as much as you expect.

Always take the free typology test very seriously from the very beginning in order to get your correct result. This is due to the fact that your answers to the questions directly affect your final result, since we made the test

logical, not psychological. In other words, your personal psychological state and mood does not affect the logic of the typology test.

Having received the result of the typology test, you automatically agree that your innate values (ITT, innate group, temperament etc.) and needs coincide with the results of this test, and sign the Agreement, accept such the terms and conditions before taking the test.

Remember that the main task of the “World Typology” team is to fundamentally avoid getting the wrong or conflicting results of the typology tests, as this affects the further reputation of the typology as a whole. In the case of our free typology test, the entire responsibility for getting the right or wrong test result lies with you and your answers to the test questions. You complete this test remotely and independently without our intervention and control.

Therefore, we cannot control or check your answers in the free typology test in any way. Only you are responsible for this. Follow our guidelines and read our questions and tasks carefully, because some tasks and questions can be difficult for some people. If you think that your test result is incorrect in the end, you can retake the free typology test as many times as you wish and check the other test results for comparison. But in any case, we cannot guarantee that the result of your independent free typology testing will be true.
